## *We build quality in every detail.*

Over the years, we, at SOBHA Developers Ltd., have become one of the most preferred real estate brands in Bangalore. Today, we build homes that cater to discerning homebuyers all across the city. A city that is truly the Silicon Valley of India and one that has been recognised as the "Best Indian city to live in" on all parameters.

Over the past 17 years, our passion for perfection has driven us forward, and it gives us great pride to state that we have successfully completed over 80 real estate projects and 216 contractual projects and delivered more than 52 millions square feet. In the fiscal year 2011-12 alone, we registered fresh sales valuing at INR 17.01 billion in the residential segment. This, in itself, bears testimony to the brand equity of the company -- an INR 15 billion real estate player listed on the BSE & NSE. But, we intend to scale even greater heights by achieving our guidance of new sales valuing at INR 20 billion in 2012-2013.

Since its inception in 1995, Sobha Developers Ltd. has blended a strong customer centric approach with robust engineering, a high degree of business ethics, timeless values and transparency in every sphere of business. All of these contribute to make us one of the most respected real estate brands in India. And, an organisation where quality meets excellence, technology meets aesthetics, and passion meets perfection.

It is often believed that quantity and quality seldom coexist for long. But, we at Sobha Developers Ltd., have made this possible. Headquartered in

Bangalore, we have completed 55 residential projects across the city, which reflect our undeterred passion for excellence, perfection and detailing. These include hallmark properties like the highly successful Sobha Malachite, Emerald, Amber, Petunia, Azalea and more. Our relentless pursuit of quality is a constant in every property we create. Little wonder then that they garner instant admiration.

We have also expanded our footprint in 22 cities and 13 states across the country with properties in major cities like Bangalore, Gurgaon, Chennai, Pune, Coimbatore, Thrissur and Mysore. And as on the first quarter of the current fiscal, we have 38 ongoing residential projects aggregating to 23.50 million square feet of developable area and 16.51 million square feet of super built-up area as well as 42 ongoing contractual projects aggregating to 9.22 million square feet, under various stages of construction.

Apart from being one of the top real estate players in the country, we are also the only backward integrated entity in the entire real estate sector. The company is widely and indisputably recognised for redefining the very perception of quality and perfection in the construction space. This is endorsed by the accolades we have consistently earned over the years for building close to 200 landmark premises for some of the biggest corporate houses of India. Once you buy a Sobha home, its unmatched finesse and detailing will surely make you experience the true joys of owning a quality home.
